

Red Baron Building Company has partnered with Service First - Wommack Group to provide our customers the most up to date and innovative mortgage products available.

The Wommack Group has the knowledge and experience necessary to provide exceptional service to Red Baron clients. As a seasoned lender, the Wommack Group regularly handles five million dollars or more in loans per month.

Having the ability to work directly with the Government's National Mortgage Association (Ginnie Mae), means there are no loan brokers or other middle-men involved in the loan process. The Wommack Group handles loans from start to finish with in-house processing and underwriting. Moreover, as a Ginnie Mae servicer, the Wommack Group also has the ability to make and service loans that other lenders may not be able to approve.

The Service First - Wommack Group is dedicated to providing Red Baron Building Company clients with the care and attention they deserve.

The Wommack Group is proud of the relationships it builds with its clients - many of whom become repeat customers and identify the reasons for their loyalty as great communication, lower rates, and lower overall costs. With the Wommack Group's business partners and community relationships as a mortgage banker, they meet, and continually strive to exceed, customers' expectations.

**Wommack Group:
With you every step of
the way.**
